

Uitslag per gebied: Smererijen Monitor

Een groot deel van de uitkomsten op de Smererijen enquête vragen zijn samengevat in een aantal hoofd- en subthema's. Voorbeelden zijn het oordeel van de bewoners over de diverse voorzieningen en hoe zij de sociale cohesie in hun wijk ervaren. Een totaal overzicht van de thema's en een nadere uitleg vindt u in het document Achtergrond Smererijen Monitor.

In de Smererijen monitor worden de Smererijen op twee manieren met elkaar vergeleken: I. in absolute (rapportcijfers 1..10) en in relatieve scores (afwijkingen ten opzichte van het Hoogeveense gemiddelde).

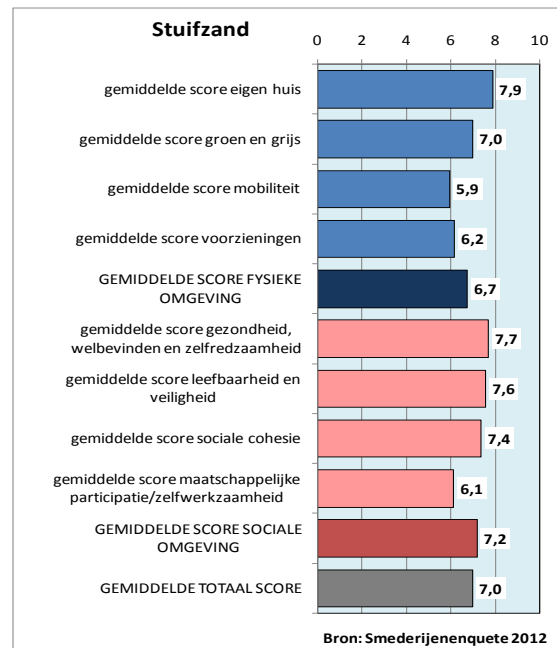

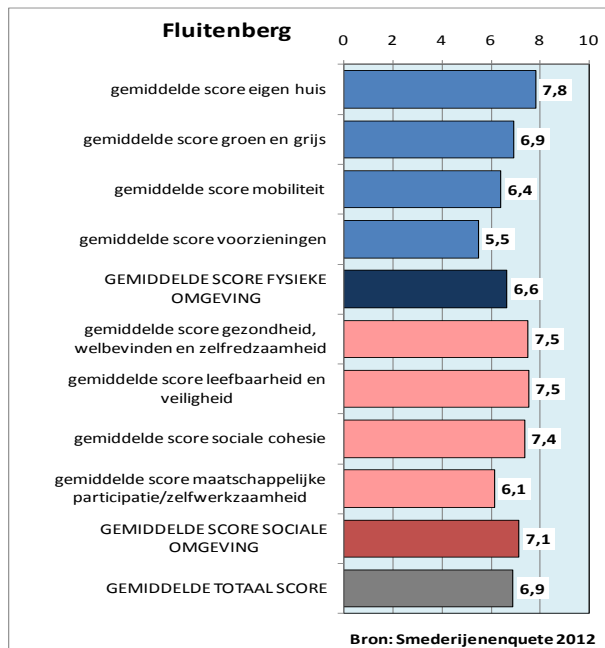

Hieronder vindt u de resultaten.

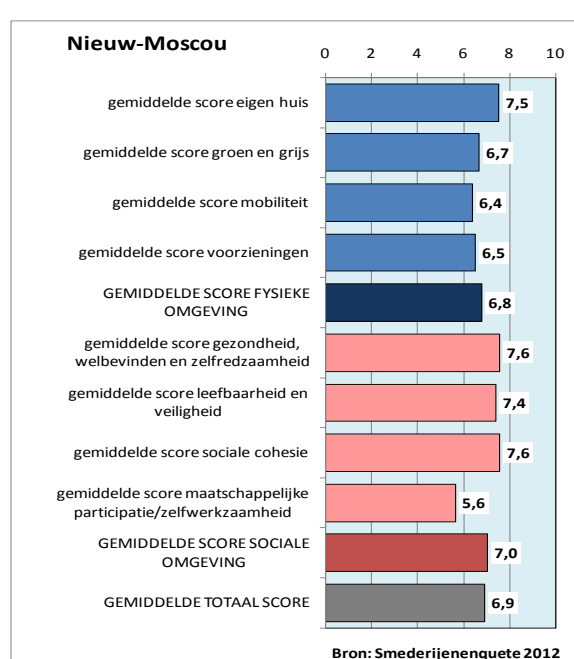

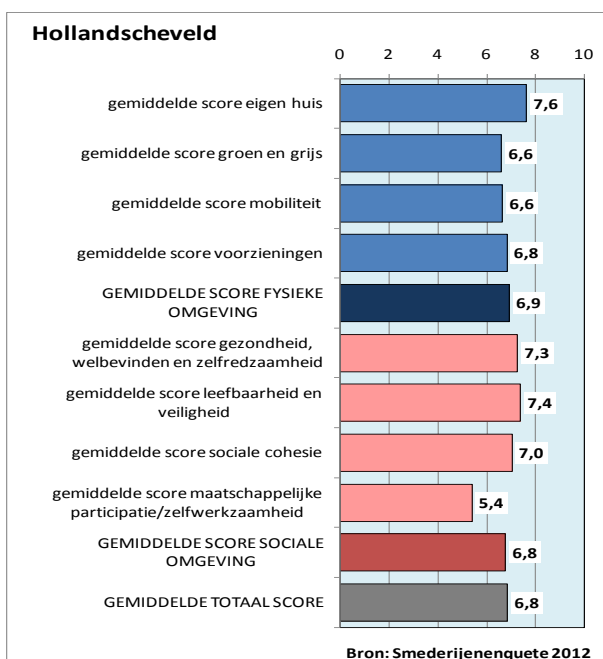

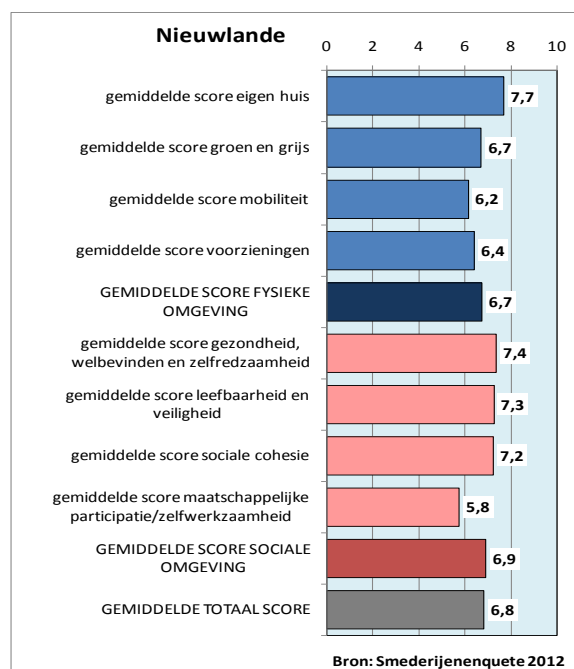

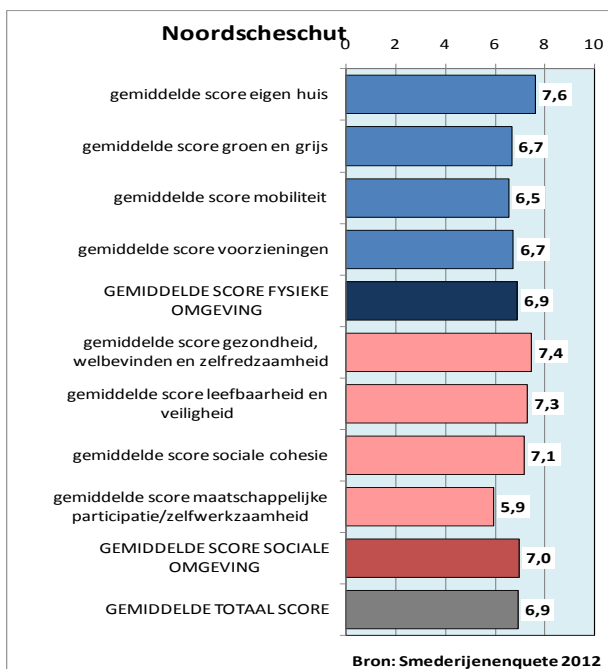

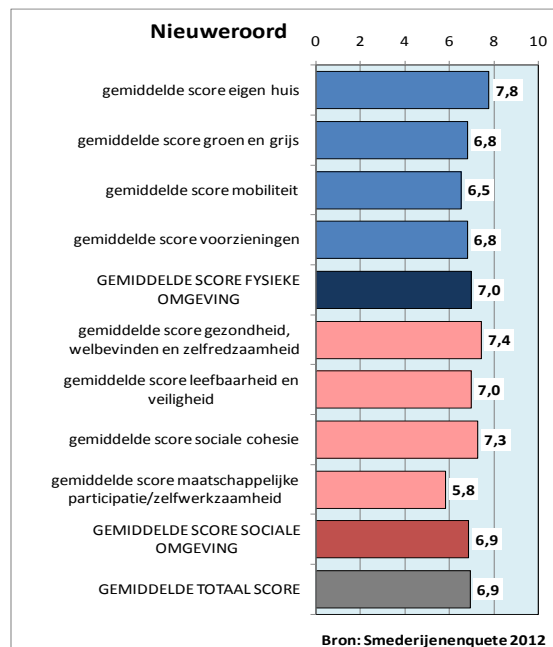

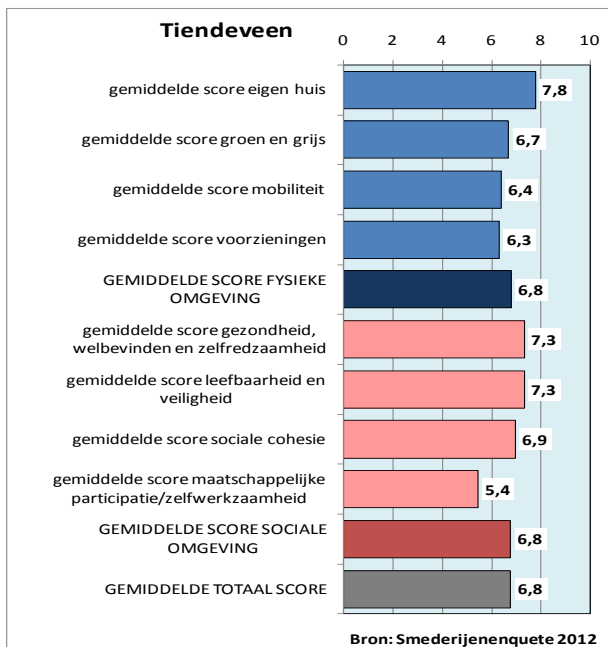

- I. [Monitor absolute scores](#)
- II. [Monitor relatieve scores](#)

I. Monitor absolute scores
